

ConsciousLiving Institute

Your Team - Christa Krahnert; Rolf Krahnert; Daniel Pasovski; Emma Marchesi

The ConsciousLiving Institute's mission is to facilitate one to actively raise their awareness towards their body, emotions and thoughts.

Frequency courses assist one to learn how one's body reacts to their own thoughts and emotions and how one can use a Healy effectively.

The ConsciousLiving Institute's frequency courses are not for any technical issues or issues with the Healy World company. Those are to be addressed with sponsors, uplines, back office tickets, etc.

'We don't treat any labels or diseases; we optimise our energetic level to support the body with energy so self-healing can be activated'. (Christa Krahnert via Heal-y Holistic Health Telegram group)
